WHO AM I?

Hello, I am Ali Torabi, a senior software engineer. I have been working on web, desktop and console applications using various technologies for the past 7 years. I enjoy creating innovative solutions that help solve real-world problems and make a positive impact on people's lives. I am also keen on learning more about low-level programming and cloud computing.

SKILLS

• Software Design
• Database Design
• Data Structure
• Design Patterns

• C# & .NET & SQL
• TypeScript & Vue.js
• C/C++ & Python
• Azure & AWS

EXPERIENCE

2023 – Present **Full Stack .NET Developer**   **First Line Software**

I am a software engineer working on a large E-Commerce/CMS solution named Optimizely. The main challenges are:

• Adding complex features to project regarding the requirements.
• Adding many useful reports for admin section.
• Adding SPA support to an existing project.

I learned the necessary skills for the project in a short time and started to write code that met the standards.

`ASP.NET Core / SQL Server / Vue.js / ElasticSearch`

2020 – 2023 **Full Stack .NET Developer**   **Gooshishop - Hasin Technology.**

I was a software engineer working on a large legacy E-Commerce solution. The main challenges were:

• Maintaining project and fixing numerous bugs and issues.
• Optimizing many actions and easing the sales process.
• Choosing NopCommerce as base solution and implementing our needs in that.
• Migrating the whole system to new product.

I'm proud to say I improved some actions up to 60% and Added so many features in years.

`ASP.NET MVC / ASP.NET Core / SQL Server / PostgreSQL / ElasticSearch`

2020 – 2020 **Part-Time Full Stack .NET Developer**   **iTelemed - Canada Telemedicine Group Inc.**

I was a part-time Full Stack .NET Developer on a fully online medical solution. Main challenges were:

• Developing the project as fast as possible because of the Covid-19 situation.
• Preparing system to execute more than 100 complex requests in a minute.
• Reaching an architecture to enable us to scale the project.

Online visiting (video chat), text chat, ticketing and managing patients were some of features built in a 3 month work.

`ASP.NET Core / SQL Server / SignalR / WebRTC`

2019 – 2021 **Full Stack .NET Developer**   **Algorithm Pars.**
I was a senior developer working on a legacy project which was widely in use in large companies. The main challenges were:

- Reducing the expenses of maintaining the project.
- Creating a transition phase in order to migrate to .NET Core
- Creating and implementing a new framework to switch to ASP.NET Core.
- Reading and rewriting many parts of code and reduce line of code by 20%.

I was a key person in this project and had a good collaboration with project manager. We have improved the performance more than 15% through years.
`ASP.NET Core / ASP.NET WebForms / SQL Server`

2018 – 2019 **Software Consultant & SEO Manager**   **Sunseir Travel Agency**
Working with my nice colleagues on a website that implements both B2B and B2C business models which handles a very high amount of request. Also improving "Sunseir" brand, advertising and SEO on aside.
`ASP.NET Core / SEO Tools`

2017 – 2019 **.NET Developer**   **Dipeh.ir**
Dipeh is a website to explore about books, authors and publishers. The main goal in this project was designing a software with very specified requirements Another important goal was reaching nice performance through maximum code optimization.
`ASP.NET MVC / SQL Server / Bootstrap`

2016 – 2018 **Junior Developer & SEO Manager**   **Mehr -o- Mah Travel Agency**
This was my first official job as developer. It was a large-scale app with lot's of functionalities that brightened me to professional programming.
`ASP.NET MVC / SQL Server / Bootstrap / SEO Tools`

EDUCATION

2016 – 2018 **Master's Degree**   **Islamic Azad University, Najafabad, Iran**
I focused on software engineering and software development during MS and therefore my thesis was about predicting software bugs and defects early during development

2012 – 2016 **Bachelor's Degree**   **Zanjan University, Zanjan, Iran**

LANGUAGES

- **Persian** - Native
- **English** - Proficient
- **Czech** - Basic
